The Demo-Populists are trying to swing the woman vote to their ticket, because one man on it has shown himself favorable to the cause of equal suffrage. Because one man on the ticket worked for suffrage the women do not promose to vote for a half-dozen others who have worked against them at every opportunity.

filed in the district court, and if the motion is sustained the plaintiff can take an appeal to the supreme court and hang up the case for at least two years. The railway company can appeal the case itself, but it would take almost as long to reach it on the docket as if it were taken up on an appeal motion.

A contract was entered into yesterday between Reid Bros. Packing Company and Peet Bros. whereby that company is given the privilege of using the Union Terminal tracks across the lutter's property for the next ten days. The packing company is shipping its salvage to its plant at Indianapolis and is gotting it out over the Union Terminal tracks. By the contract the packing company agrees to haul only its own cars over the tracks, and in no way is it permitted to run any others. For this Peet Bros. get \$3 for each car that passes through its property. It is expected that not less than 200 cars will be shipped out within that time. The attorneys for the plaintiff in the injunction proceedings claim that the railroad company will never be permitted to run cars across their land until the judgment is settled. The railway company claims shat it filed a bond with the country clerk for all appeals taken from the report of the condemnation commissioners, but the report cannot be found. The cierk nor any of his deputies ever remember of such a bond being filed. Will offer some genuine bargains in Dress Goods, Table Linen, Shoes, Etc., Etc., today. The Plea of T. J. Turner in an Injunction

Judge Anderson in the court of common pleas yesterday morning in the case of T. fendants had obtained possession of the property of the plaintiff by fraudulent means. The property in question is a landry, known as the T. J. Turner hand laundry, the plaintiff was pronounced insane March 8 in the probate court and was taken to his relatives' home in Holt, Mo., where he regained possession of his mind and returned to this city a few days ago. An examination was held and the jury decided that he was perfectly sane. The plaintiff claims that it was while in the former condition that he signed the bill of sale, which the defendants hold in their possession. The plaintiff is seeking to recover the property, which he claims to be

District Court Cases.

In the district court yesterday the case of H. C. O'Dell against F. O. Walcker, a suit to recover damages on account of a fire, was thrown out by Judge Alden on a demurrer. O'Dell's house, in the northern part of the city, was destroyed by fire last summer. He claimed that the fire was caused by a tinner employed by Walcker, who was at work at the house, accidentally setting the roof on fire with charcoal. The plaintaff wanted damages in the sum of \$500.

The case of L. M. Wood against W. F. Wood, to foreclose a mortgage on a piece of property at White Church, was continued on account of sickness of some of the witnesses. The plaintiff and defendant are brothers, and both are physicians.

Judge Alden then discharged the jury for the term and adjourned court until April 8. The jury waived and equity cases will then be taken up.

Worth, Tex., was killed by a train of cars on the Santa Fe road near the stock yards yesterday morning at 2 o'clock. He had just arrived with a shipment of stock and with his valise in his hand he started to walk along the Santa Fe tracks to the Stock Yards hotel. A switch engine was backing some double deck sheep cars to the pens for the purpose of loading them and before the Texas shipper was aware of his danger he was struck by the cars and terribly mangled by several cars passing over the lower portion of his body. Both legs were cut off and ground into a jelly, a portion of a rib, which was also broken, penetrated a lung, which was the cause of immediate death. The police ambulance

The Curled Hair Nuisance.

The suit of the county attorney to enjoin the American Curled Hair Company from drying hair in the vicinity of Grandview will be heard by Judge Aiden, of the district court in chambers Monday. A large number of witnesses have been subpoenaed by the state. In fact almost every resident in that fashionable part of the city has been subpoenaed. Attorney Perdue is about the only one that has not been summoned, probably for the reason that he is attorney for the defense. Among other persons who have been subpoenaed as witnesses are Congressman Miller, Attorney C. F. Hutchings and Rey, C. W. Backus.

THEIR FINISHING WORK. THEIR FINISHING WORK.

Republican Numbers Putting Forth Their Final Efforts.

The Republican numinees are doing some sail hustling this week. They are getting tall hustling this week. They are getting out among the people and are making votes. They all feel counties that the source ticket will be elected by majorities ranging from 2.50 to 6.000 votes. A prominent Heroblician stated last evening that in his opinion the Republican majority would be larger than the number of votes received by the so-vailed citizens' ticket. The Republicans have made a good clean compaign. They realize that the Demo-Populisis stand no show whatever at the election and they have no desire to go into a mud slinging campaign.

On the other hand, the so-called citizens' nominees are resorting to all kinds of methods with hopes of receiving votes. They are troubled with the blues. They know they are chasing a political rainbow and it makes them feel bad to think that the people will not give them just one chance. They have been trying for many years to get office, and some of them feel that this is their last chance. The people are not puting men into office sow on the sympathy racket, nor because the men have always been seeking office. This is what troubles the citizens' nominees.

He is the first of the crowd to be recaptured.

Charley Peterson, a young boy who stays around the police headquarters here, told Chief Richardson vesterday afternoon that Lumley was standing on the corner of Spear avenue and State street. Richardson went down that way, and saw Lumley going in the direction of the Santa Fe yards. While apparently on other business the chief managed to get within shooting distance of Lumley, when he ordered him to halt. Lumley was taken at a disadvantage, and was compelled to surrender, although he afterwards said he would have shot the officer in case he had been armed. Chief Richardson wheel the officers of Fort Scott of the capture, and differers will likely arrive to-day, when Lumley will again be placed in the hands of the federal officers.

Lumley is a young halfbreed Indian, and has the reputation of being a desperate criminal.

Not a Very Hig Meeting.

The gun that was loaded by the members of the administration "push," and by which they expected to sweep the held clear of all opposition, was touched off Thursday night at Metropolitan hall, but it falled to create the desired effect, and was in reality a very weak affair. The Citizens' candidate for the office of mayor occupied most of the evening in telling state jokes, and by so doing avoided many of the leading questions upon which a great many were anxious to hear his statements. He claimed to answer all charges that had been made with regard to the present all-ministration, but falled to answer a statement made by a Republican speaker at their rally recently that work for the city had illegally been done by members of the council.

It has been decided that nothing further ouncil.

It has been decided that nothing further will be done with regard to the list of judges and clerks, which were appointed almost exclusively from the ranks of the Citizens' party, but, instead, various candidates on the Republican ticket will appoint some friend to represent them at the election places, as is allowed by law.
